IMMEDIATE PRESS RELEASE

GREEN PEOPLE "GOGO" WILD ACROSS FLORIDA

Okeechobee, FL--The Green People Team of **GoGoFlorida.com** will make its debut by "go-go-ing" through Florida's cities, both on and off line. Getting consumers and businesses connected in a clean environment is the rhythm behind its dance. **GreenPagesFlorida.com** is where the Green People Team offers businesses the opportunity to advertise in the new **GoGo** search.

GoGoFlorida is Florida's premier online search/directory, making it easy to find local businesses in 241 categories. Its name tells the story—"GoGo" clicks through a quick, clean environment void of spyware, pop ups, redirects, adult content and banners; while "**Florida**" searches Florida, instead of the whole globe, to find local products and services. Consumers can also be better informed about which business to choose by reading company data pages.

www.GoGoFlorida.com

GreenPagesFlorida, is the business portal and informational hub of **GoGoFlorida**. Businesses can maximize advertising opportunities through the **GoGo** search, and simplify business tasks with the exclusive toolset--classifieds, employment, maps and coupons. Businesses with the desire to increase online rankings, target traffic and generate revenue will find the support they need—which is what local businesses are looking for. Registration opportunities are now being offered at **GreenPagesFlorida.com** with “first-come, first-serve” limited space.

The company’s Chief Technical Officer, Craig Guinn stated, “Technology’s explosive pace created a world of internet consumers, leaving local businesses behind and disconnected. As a result, millions of dollars have left Florida each year. It’s now up to local businesses and consumers to come together and remedy this problem. Re-connecting the two could greatly impact and strengthen Florida’s economy—and we have the technology to do it.”

The Green People Team will continue to encourage businesses to practice smart environmental principles, support sound community development and connect consumers to local business. It will also “gogo” to every Florida city, making a difference and inviting local Florida business to join **GreenPagesFlorida.com**, and consumers to search at **GoGoFlorida.com** GoGo!

###

ABOUT THE GREEN PAGES, LLC: The managing members of The Green Pages, LLC offer a truly effective and affordable internet advertising solution for all businesses. Their old fashioned business ethics, knowledge of current technology, years of online experience and broadened sense of green awareness have combined to address the ethical, technical and environmental demands of our ever changing, fast paced global society. Their future master plan is to bring their online advertising model across the United States in 2008.
